TURKISH STANDARDS INSTITUTION (TSE)

- National authorized standardization body of Turkey
- The only governmental institution in Turkey performing Halal Certification

TSE has started Halal Food Certification in 2011 as a result of development of SMIIC Halal Standards.

PATHWAY ON ENHANCING PERSONNEL QUALIFICATIONS IN TSE

- Auditors were appointed similar to the Management Systems that we are accredited as TSE.
- Performance evaluations were performed by constantly monitoring the performance of halal technical auditors during field audits.
- Feedback regarding our experts and audit work was received by sending questionnaires to our halal certified companies after the audits
- In areas open to improvement, which are determined by company feedback; trainings were carried out on the basis of both audits and auditors.

PATHWAY ON ENHANCING PERSONNEL QUALIFICATIONS IN TSE

- Following the updating of the standards and/or the publication of new standards, relevant trainings were organized and by this way, the information updates of our halal technical experts were carried out.
- The training process has been continuing since 2011, when the Halal Conformity Assessment activity started, and continuous performance monitoring has been carried out since then.

PATHWAY ON ENHANCING PERSONNEL QUALIFICATIONS IN TSE

- Mutual knowledge and experience sharing was ensured through experience sharing and Halal Technical Auditor consultation meetings
- Our auditors have updated their knowledge at a global level by constantly participating in national and international fairs/congresses/seminars.

PATHWAY ON ENHANCING PERSONNEL QUALIFICATIONS IN TSE

- At the Academic Advisory Board meetings, both fiqh and technical issues in dispute were discussed and hesitant issues were resolved.

Following the meetings, our halal technical auditors were informed about the decisions taken.

PATHWAY ON ENHANCING PERSONNEL QUALIFICATIONS IN TSE

- TSE Halal Technical Inspection Experts took part in the technical committees and working groups established for the preparation of standards during the establishment phase of SMIIC.

In this way, they had the opportunity to update their knowledge in the field of halal at the international level.

- Information was shared through mutual foreign visits, especially with Halal Conformity Assessment bodies operating on an international platform.
